10 Reasons to Choose Access Control as a Service

PRIMIS *CLOUD*

1 Virtual Benefits:
Primis Cloud ACaaS merges subscription-based software as a service (SaaS) with on-site access control devices.

2 Pay-As-You-Go:
The subscription model preserves cash flow and adds to the upside of ACaaS without hassles or risks.

3 Less Upfront Costs:
With Primis Cloud, all data is stored in AWS remote servers, not on-premises, making ACaaS much less expensive than legacy access control.

4 Cloud-Based Management:
Control, manage, and maintain PACS via intuitive browser-based web administration.

5 Anywhere Operations:
Grant the right access to the right people at the right time from anywhere in the world with 24/7 remote access control.

6 Centralized Monitoring:
Back up and store data safely while accessing perpetual records of who entered controlled areas or applications.

7 Unburdensome Platform:
Primis Cloud ACaaS lightens the hardware load organizations have to deploy and maintain.

8 Virtual Troubleshooting:
Widely distributed work forces are the norm and the need to troubleshoot remotely is critical.

9 Scalable and Flexible:
Include more Primis Cloud doors and assign different access levels to cardholders without changing hardware or obtaining additional software.

10 Peace of Mind:
Primis Cloud is up-to-date with the latest features and software, and the software is patched and upgraded automatically.
