

Enterphone™ Kiosk

Stainless Steel Touch Screen Intercom

Freestanding Enterphone Kiosks are ideal for entrances, lobbies, and gates.

Enterphone Kiosks allow building tenants to communicate with visitors and grant or deny entry. Units can display residential or commercial building directory listings with a building-specific screen saver. Options include built-in cameras, card access, and elevator control. Multiple panels can be connected on a shared database or to central Freedom Access Control for a total security management solution.

Top benefits of Enterphone Kiosks include:

- Web browser administration for easy admin access from any PC on the LAN, as well as Internet administration via any securely authenticated device

- Networked device allows for standard IP security policies to be applied, such as TLS 1.2 encryption
- Panels support a subscribed phone line out-of-the-box, with NSL options available
- Support up to 7 languages
- Full-color HD screen allows for fully customizable screensavers
- Camera support offers greater building security, allowing visitors and admin to view snapshots of log events (both placed calls and door release events)
- Supports both residential directories as well as business drop-down categories

Secure, Integrated, Complete

- Allows building tenants to communicate with visitors and grant or deny entry
- Integrates with other Enterphone products and Freedom Access Control
- Multiple panels can be connected for complete card access

Feature Rich

- 19-inch full-color HD touch screen (custom sizes available upon request)
- Residential or business listing formats with drop-down menus
- Unlimited names, card users, cards, schedules, and groups

Optional

- Expands up to 16 readers with an Enterphone Cube and up to two access control card readers with Freedom Encryption Bridge
- Camera support with image capture based on dial initiation and on-door release
- Can include postal lock and heater
