

# Enterphone™ Family

## Residential Telephone Entry System

The Enterphone Family is a feature-rich, integrated telephone entry system for facilities of any size, from small apartment buildings to large multi-family, multi-tenant condominium high-rises.

The Enterphone design maximizes the user interface experience while enabling a number of configurable options such as Access Control, language, touch screen display, and screen saver options.

Enterphone iQ, 19 and Kiosk are ideal for apartment buildings, condominiums, stratas, gated communities, multi-use commercial, residential and office buildings. Enterphone iQ and 19 can be flush or surface-mounted, enabling installation options to meet the aesthetic requirements of the customer's environment.

The systems are scalable with other Enterphone panels to fit the needs of any customer, regardless of size. Identiv offers a variety of panels from the 10-inch iQ to the 19-inch Touch Screen Kiosk.

- Supports up to two access control card readers with the purchase of the Primis Encryption Bridge
- Expands up to 16 readers with purchase of the Enterphone Cube
- Networked device allows for standard IP security policies to be applied including AES 256 and TLS 1.2 encryption
- Stainless steel construction
- Supports up to 4 languages
- Full color HD screen allows for fully customizable screensavers
- Camera support offers greater building security, allowing visitors and admin to view snapshots of log events
- Supports both residential directories as well as business dropdown categories

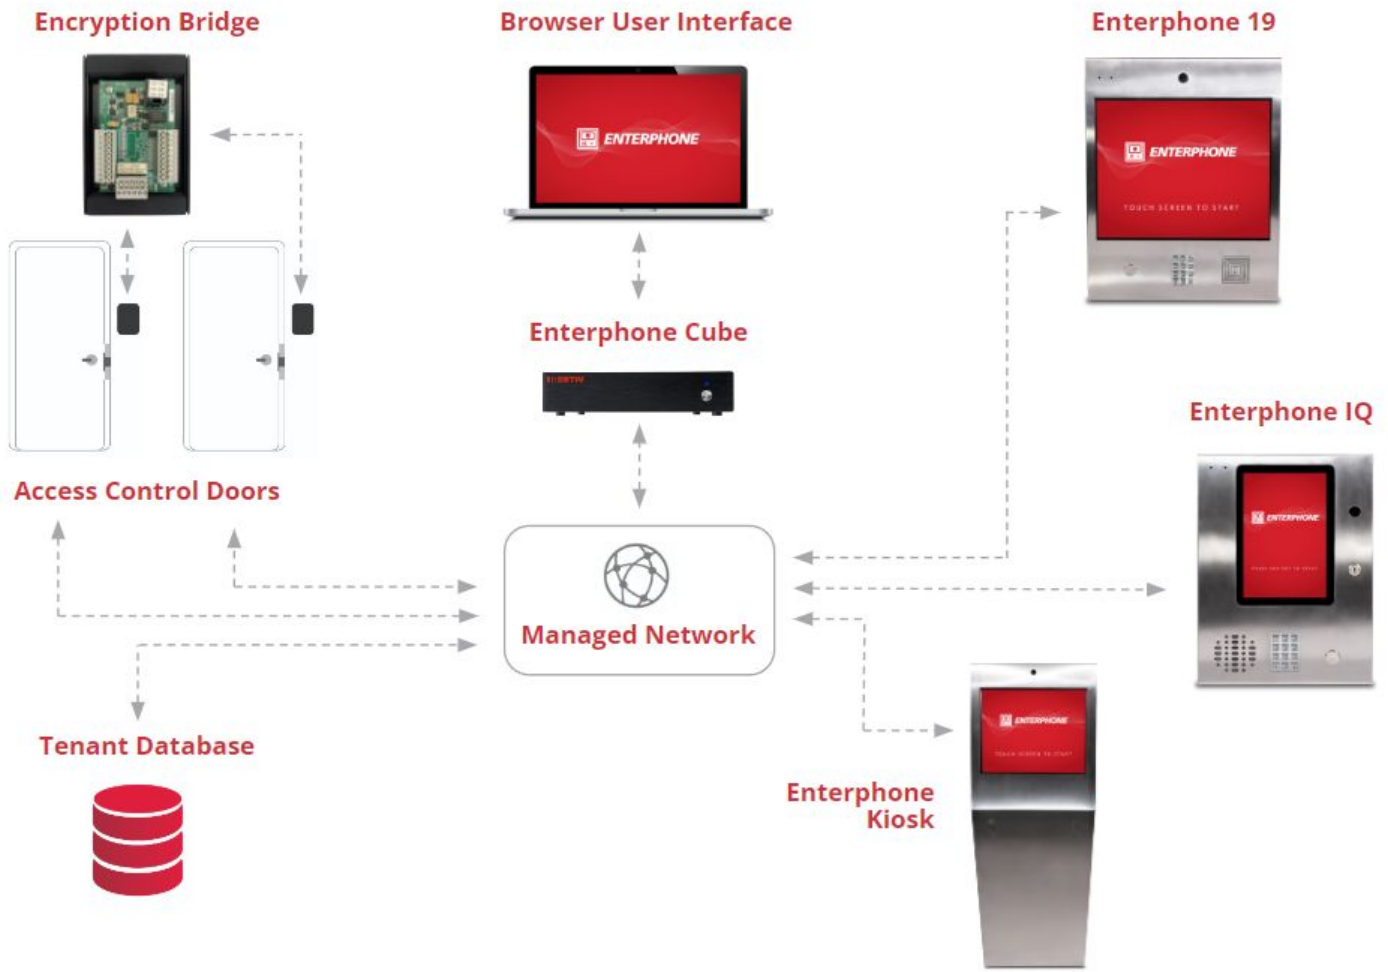

### Advanced, Integrated, Secure

- Browser access for remote programming and management, vibrant HD touch screen, multi-language and personalized display for style, brand, or advertising
- Integrates with other Enterphone products and Primis Access Control, enabling a single door to unlimited card reader door support with elevator control and multiple telephone entry points
- Network connectivity with AES 256 and TLS 1.2 encryption
- Residential or business listing format with drop-down menus and unlimited names, card users, cards, schedules, and groups; integrated touch screen or keypad; auto redial to alternate number
- Linux OS

### Optional

- Expands up to 16 readers with an Enterphone Cube and up to two access control card readers with Primis Encryption Bridge
- Camera support with image capture based on dial
- Stainless steel backbox, postal lock, trim ring, weather hood, heater, and flush mount kit for in-wall configurations
