IDENTIV

Enterphone™ iQ
HD Browser Managed Telephone Entry System

The rugged, mid-sized, economical telephone entry system features a keypad-driven 10-inch HD screen.

The Enterphone design maximizes the user interface experience while enabling a number of configurable options such as Access Control, language, and screensaver options.

Enterphone iQ is ideal for apartment buildings, condominiums or stratas, multi-use commercial and residential, office buildings, and gated communities. It can be flush or surface-mounted, enabling installation options to meet the aesthetic requirements of the customer's environment.

Top benefits of Enterphone iQ include:

- Browser administration allows for easy access from any PC on the LAN, or via any securely authenticated device

- Supports up to two access control card readers with the purchase of the Primis Encryption Bridge

- Expands up to 16 readers with purchase of the Enterphone Cube

- Networked device allows for standard IP security policies to be applied including AES 256 and TLS 1.2 encryption

- Stainless steel construction

- Supports up to 4 languages

- Full color HD screen allows for fully customizable screensavers

- Camera support offers greater building security, allowing visitors and admin to view snapshots of log events

- Supports both residential directories as well as business dropdown categories

Advanced, Integrated, Secure

- Browser access for remote programming and management, vibrant HD screen, multi-language and personalized display for style, brand, or advertising

- Residential or business listing formats with drop-down menus

- Unlimited names, card users, cards, schedules, and groups

- Dial via physical keypad

- Auto redial to alternate number

- Unlimited administrative users

- Full access, read-only, and no access administrative permissions

- Exportable log event history with filters for auditing and sharing

- Linux OS

Optional

- Expands up to 16 readers with an Enterphone Cube and up to two access control card readers with Primis Encryption Bridge

- Camera support with image capture based on dial

- Stainless steel backbox, postal lock, trim ring, weather hood, heater, and flush mount kit for in-wall configurations
