

# VELFED100 Hirsch Velocity Software

Security Management System for Federal, Defense, and Aerospace

VELFED100 is for end-users deploying systems with less than 100 sites.

## Velocity Certificate Checking Services

This licensed module adds authentication support for PIV/PIV-I/CAC/TWIC high assurance credentials. The Velocity Certificate Checking Service (VCCS) validation engine is used for managing credential certificates and utilizing PKI to establish a chain of trust. With the use of the TS FICAM card readers and VCCS, VELFED100 is a GSA APL approved 13.02 solution.

## Latest Software Upgrade

Hirsch Velocity 3.8 is the latest iteration of Identiv's worldclass physical access software platform. Designed and built from the ground up, Velocity delivers unsurpassed security, interoperability, and greater expansion and flexibility options designed to accommodate the evolution of security technology and meet the needs of even the most complex business, personnel, and facility requirements. Velocity 3.8 provides full compatibility with the latest hardware in Hirsch's Mx Controller product line and supports the latest versions of Microsoft Windows and SQL Server along with the latest network encryption protocol.

## Velocity Web Services Console

Allows administrators and operators to access real-time system information, enrollment, and control functionality through a compatible browser on almost any device. This provides mobility options for security and facility personnel allowing administrators and security personnel to access key features of Velocity via fixed computers and mobile devices. Velocity 3.8 builds on the Hirsch product legacy while maintaining the management environment that has received many accolades for its robust architecture, full feature set, and ease of use. The modular user interface is retained, so that users with Velocity experience will easily transition to the latest build.

## Built Hirsch Tough

Building on the Hirsch product legacy, Velocity 3.8 maintains its award-winning robust architecture, full feature set, and ease of use. The modular user interface ensures that users with Velocity experience will easily transition to the latest build. For new users, the intuitive interface is supported by a comprehensive set of tutorials and help files. Performance enhancements throughout the product enable faster access to administrative views, including animated floor plans and alarm monitoring.

## Velocity Federal Core Features

| Feature                             | Description   |
|-------------------------------------|---|
| <b>Administration</b>               | Contains Velocity, controllers, and interfaces configuration tool   |
| <b>Alarm Viewer</b>                 | Monitor and acknowledge active system alarms, such as Forced Entry, DOTL (door open too long), and many more                      |
| <b>Graphics</b>                     | Provide a visual interface for door status, alarms, and links to video feeds  |
| <b>Event Viewer</b>                 | View system events as they occur with as much granularity as desired  |
| <b>Enrollment Manager</b>           | A comprehensive enrollment tool for managing individuals, groups, and their credentials   |
| <b>Badging Design</b>               | Design and control the issuance of credentials from within the Velocity environment   |
| <b>Report Manager</b>               | Choose from 75 default reports or create your own; export in wide variety of formats  |
| <b>Velocity Web Services Client</b> | Access information and control systems via a web link; optimized for Edge and Chrome  |
| <b>Networked Global IO</b>          | Global IO manages a set of controllers that share credential zone access information and global control zone data with each other |
| <b>Who's Inside</b>                 | Monitor the personnel in a given building or floor; ideal for managing emergency egress/mustering                                 |
| <b>Status Viewer</b>                | Review the status of all hardware connected to a system, including doors, inputs, relays, controllers, and more                   |
| <b>Scheduling Agent</b>             | Schedule a wide range of system tasks, like deactivating credentials, running logs, printing reports, or executing command sets   |
| <b>Trigger Action Manager</b>       | Pair an action to an event (i.e., associate an alarm with a video camera)   |
| <b>Video Integrations</b>           | Associate doors with cameras, view video with the built-in video viewer, launch from active alarm, graphics module, or the viewer |

## Part Numbers

| Part Number          | Description   |
|----------------------|---|
| <b>VELFED100</b>     | Velocity Software License - Federal Edition, up to 100 sites. First year SSA (Software Support Agreement) required, not included.   |
| <b>SSA-VELFED100</b> | Velocity FED100 – Software Support Agreement - 1 Year.*   |
| <b>VELFED250</b>     | Velocity Software License - Federal Edition, up to 250 sites. First year SSA (Software Support Agreement) required, not included.   |
| <b>SSA-VELFED250</b> | Velocity FED250 - Software Support Agreement - 1 Year.*   |
| <b>MOD-ADD-16</b>    | Velocity Server security management application software license. Additional 16 modules. First year SSA (Software Support Agreement) required, not included.  |
| <b>SSA-MOD-16</b>    | Velocity Server security management application maintenance - 1 Year service for support of additional 16 modules.*   |
| <b>MOD-ADD-128</b>   | Velocity Server security management application software license. Additional 128 modules. First year SSA (Software Support Agreement) required, not included.                                       |
| <b>SSA-MOD-128</b>   | Velocity Server security management application maintenance - 1 Year service for support of additional 128 modules.*  |
| <b>MOD-ADD-512</b>   | Velocity Server security management application software license. Additional 512 modules. First year SSA (Software Support Agreement) required, not included.                                       |
| <b>SSA-MOD-512</b>   | Velocity Server security management application maintenance - 1 Year service for support of additional 512 modules.*  |
| <b>MOD-ADD-1024</b>  | Velocity Server security management application software license. Additional 1024 modules. First year SSA (Software Support Agreement) required, not included.                                      |
| <b>SSA-MOD-1024</b>  | Velocity Server security management application maintenance - 1 Year service for support of additional 1024 modules.*   |
| <b>CLIENT-ADD-5</b>  | Velocity security management application software, Server edition. Additional 5 Thick Clients. First year SSA (Software Support Agreement) required, not included.                                  |
| <b>SSA-CLIENT-5</b>  | Velocity Server security management application maintenance - 1 Year service for support of additional 5 thick clients.*  |
| <b>Mx-1-W</b>        | Velocity security management application software license. For Mx-1 only, adds 8 wireless locks, counts against module license. First year SSA (Software Support Agreement) required, not included. |
| <b>SSA-MX-1-W</b>    | Velocity Mx-1, 8 wireless locks Software Support Agreement - 1 Year.*   |

\*One Month, 3 Year and 5 Year options available.

## Velocity Certificate Checking License

| Part Number         | Description   |
|---------------------|---|
| <b>VEL-VCCS</b>     | Velocity Certificate Checking Service plug-in license. For support of PIV/CAC/TWIC certificate checking. Requires VELFED100/250 for FICAM compliance, GSA APL #10103. One license required per Velocity Server 3.7 or higher. First year SSA (Software Support Agreement) required, not included. |
| <b>SSA-VEL-VCCS</b> | Velocity Certificate Checking Service - Software Service Agreement - 1 Year.*   |

\*One Month, 3 Year and 5 Year options available.

## Velocity Vision Part Numbers

| Part Number | Description  |
|-------------|--|
| <b>SVVB</b> | Velocity Vision Standard, Base License, Required as a Minimum for Velocity Vision Standard         |
| <b>AVVB</b> | Velocity Vision Advanced, Base License, Required as a Minimum for Velocity Vision Advanced         |
| <b>PVVB</b> | Velocity Vision Professional, Base License, Required as a Minimum for Velocity Vision Professional |
| <b>EVVB</b> | Velocity Vision Enterprise, Base License, Required as a Minimum for Velocity Vision Enterprise     |

## Identiv Global Services

Velocity's powerful SDK enables several types of systems to integrate with Velocity such as HR, IDMS, Key Management, URL Triggers, SIEMS, PSIMs, and others. Contact [sales@identiv.com](mailto:sales@identiv.com) for the latest information on integration options, or to get further details on Identiv's .NET SDK.

Velocity seamlessly bridges physical access and IT infrastructures in a powerful and easy-to-use security management solution that scales from single-user applications to enterprise-class environments, connecting hundreds of doors and desktops for thousands of users. Utilized by IT, security, facility management, and guard personnel in commercial, governmental, and educational institutions worldwide. Velocity integrates access control, intrusion detection, video surveillance and recording, photo ID badging, smart cards, biometrics, and interoperability with other building and business systems.
