

Stay current with the latest software releases, security updates, feature enhancements, and bug fixes, ensuring your system remains secure, reliable, and up to date.

Access expert technical support, secure remote assistance, and our knowledge base to keep your system running smoothly.

Protect your investment and keep your system ready for tomorrow with ongoing enhancements.

Keep panels and readers up to date with the latest firmware, including new features, performance improvements, and bug fixes.

Three Reasons to Stay Up-to-Date

1**Peak Performance:**

Ensuring that your system stays up-to-date helps maintain peak performance. With Hirsch's SSAs, you always have access to the latest product versions, making certain you reap the benefits of recent innovations and enhanced security.

2**Technology Fit:**

As new technology emerges, you can integrate and benefit from it to continually improve your system. Running the latest version allows you to take advantage of these advancements to enhance performance and better utilize existing hardware.

3**Reduce Vulnerabilities:**

Keeping your system updated is the first step to securing it. Hirsch swiftly responds to new potential security threats. With our SSAs, you can rest assured that these precautions are reflected in the continuous product updates.

**Enrollment and Renewals**

Protect your investment and ensure the ongoing security and efficacy of your system. Renewing plans annually ensures your Hirsch solution is covered and up-to-date. Our SSAs are not just an option; they are a necessity. Explore more and enroll today.
