

Velocity Vision 5.2 by Hirsch Is Now Available

Bringing you the latest advancements in video security and data integrity

Our Velocity Vision video management software platform currently supports more than 14,700 different security devices from more than 700 of the industry's leading manufacturers. Technologies and partners include providers of network video cameras, including Vivotek, servers, switches, workstations, cloud technologies, access control from Hirsch Velocity, alarm and detection systems by Protech, Vision AI video analytics, the Velocity One HCI solution, and our new situational platform, Velocity Central.

Key Updates in Velocity Vision 5.2

- **Vision Client** - Extended smart map availability
- **Vision Client** - Map migration tool
- **ONVIF** - Profile M metadata support
- **Operator Clients** - Vietnamese language support
- **Mobile Clients** - New layout for video grid for tablets

Vision AI 3.0 and Vision AI Professional

Vision AI

- Search for similar objects or patterns
- Stopped vehicle detection
- Abandoned object detection

- Crowd analysis and statistics
- Enhanced object tracking
- Personal protective equipment (PPE) detection
- Motorcycle detection for two passengers
- Insight dashboards

Vision AI Professional

Combine advanced query searches with AI-powered video surveillance translating complex video footage into easy-to-understand insights. Every video frame from the cameras is being indexed, so when users query and search with text on their browser, they instantly get the most relevant video frames

- Free-text (ChatGPT-style) vision language search
 - Rule creation with vision language
-

Technical Bulletin

There is a known compatibility issue between Velocity Vision 5.1 and older versions running on Windows with .NET 8. This results in critical failures affecting authentication, database connectivity, and overall system stability.

You can learn about the issue and possible workarounds [here](#).

Vivotek Partnership

We're excited to announce that we'll now be selling **VIVOTEK's** entire product line!
